

***Pro-environmental Attitude Questionnaire***

No.	ITEMS
	<b>Recycling</b>
REC1	I think recycling of products is important.
REC2	I upcycle old products into new and useful items.
REC3	I believe recycling reduces the consumption of new raw materials.
REC4	I like to learn more about product recycling.
REC5	I believe recycling is truly beneficial for the environment.
REC6	I believe recycling reduces waste production.
REC7	I believe recycling promotes sustainable living.
	<b>Environmental Safety</b>
SA1	Safe disposal of waste products is costly.
SA2	I believe there should be a fine imposed on people who don't follow proper protocols.
SA3	Strict policies should be put into place to conserve the environment.
SA4	I believe proper precaution should be taken when dealing with toxic chemicals.
SA5	Precautionary measures should be undertaken in a firm manner with regard to natural disasters.
SA6	I feel policies should be put in place to increase environmental safety.
	<b>Perceived Control</b>
PC1	I feel I am adept at managing waste around my surroundings.
PC2	I often feel as though one single person cannot change the environment. (R)
PC3	I believe my actions are responsible for climate change. (R)

PC4	I think environmental conservation is everyone's responsibility.
PC5	I believe our cumulative efforts can reduce global warming.
PC6	I believe that I can control environmental pollution.
	<b>Social Support</b>
SS1	I believe that an individual alone cannot help in conserving the environment without social support. (R)
SS2	I prefer participating in mass clean-up drives to reduce pollution.
SS3	Creating nature clubs can help generate awareness about environmental issues.
SS4	I like volunteering my services for habitat management work.
SS5	I believe in social support for environment protection through the local clubs and NGOs.
	<b>Environmental Reductionism</b>
ER1	I believe closing the taps when we brush can help save water.
ER2	I feel the Earth has plenty of natural resources if we just learn how to effectively use them.
ER3	I firmly support closing the lights and fans in a room before leaving it.
ER4	I feel all products (like shampoo and soap) should be used till the very end.
ER5	I feel everyone should switch to eco-friendly methods more frequently.
	<b>Environmental Sensitivity</b>
ES1	I like working in well-illuminated, airy places.
ES2	Disordered surroundings make me anxious.

ES3	Crowded places make me feel uneasy.
ES4	Very loud noise or music makes me uncomfortable.
ES5	I feel irritated when I see garbage thrown on the road and the roadside.
	<b>Reuse</b>
RES1	I find new ways to use waste products.
RES2	Items should be repaired before deciding to throw them away.
RES3	I like buying products that can be used again, rather than disposable items.
RES4	Reuse preserves natural resources.
RES5	I look for new ways to reuse old products.
	<b>Conservation</b>
CON1	Regular awareness programs can help conserve the natural environment.
CON2	I try to find ways to conserve natural resources in daily life.
CON3	Conservation can help create a greener planet for the future.
CON4	I feel social media platforms can be used to promote nature conservation.
CON5	I intend to save natural resources whenever possible.

***Pro-environmental Behaviour Questionnaire***

Item	
No.	ITEM
	<b>Plant Conservation</b>
PL1	I use paper carefully and write on both sides of a sheet.

PL2	I like to enrich my knowledge by learning about forests, their importance, and the threats they face.
PL3	I support and if possible, take part in conservation drives which work for saving underwater plants such as coral reefs.
PL4	I have drought-tolerant plants in my garden (eg. cactus and succulents).
PL5	I participate and am involved in tree planting campaigns.
PL6	I have been involved in conserving, collecting and maintaining rare plants in my garden.
	<b>Green Buying</b>
GB1	I buy eco-friendly products.
GB2	I carry my own cloth bag while purchasing.
GB3	I buy products made with recycled material.
GB4	I buy products that contribute to a sustainable economy.
GB5	I ask for paper bags instead of plastic bags, while buying groceries.
GB6	While buying anything I look for packaging that can be easily re-used or recycled.
	<b>Wildlife Conservation</b>
WIL1	I provide food for wild animals and birds.
WIL2	I add log piles or other materials that can be used as a home/shelter by wildlife.
WIL3	I am aware of the wildlife protection policies of the government.
WIL4	I prefer buying cruelty-free products.
WIL5	I practice Vegetarianism as an effective way to conserve and protect wildlife.
	<b>Waste management</b>
WA1	I segregate my household waste before disposing it to the garbage collector.

WA2	I recycle wastewater from the washing machine for the garden.
WA3	I use separate bins for recyclable and non-recyclable products.
WA4	I use bins instead of littering on the street.
WA5	I decompose biodegradable waste into compost.
	<b>Civic Action</b>
CA1	I get in touch with local authorities on nature conservation issues.
CA2	I vote for parties/candidates with strong pro-nature conservation policies in elections.
CA3	I volunteer with a conservation organisation in habitat management work.
CA4	I attend local council/local authority meetings about nature conservation issues.
CA5	I participate in organised clean-up events.
	<b>Water Conservation</b>
WC1	I collect and store rainwater for further utilities rather than allowing it to run off.
WC2	I close taps properly and fix leaking taps.
WC3	I have been using a bucket and a mug instead of a shower for bathing.
